PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. May cause skin reactions. Discontinue use if any skin reactions occur. Wear chemical-resistant gloves when handling TREE GUARD® or contaminated equipment. Wash thoroughly with soap and water after handling and before eating or smoking. Do not reenter treated area until the spray has dried.

FIRST AID:

IF ON SKIN, wash with plenty of soap and water. Get medical attention if irritation persists. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: Do not reuse empty container. Wrap partially filled or empty container in newspaper and place in regular garbage.

GENERAL INFORMATION: TREE GUARD® is a ready to use deer repellent that discourages deer from feeding on trees, shrubs, ornamentals, conifers, and non-bearing deciduous trees. Use only at temperatures between 5°C and 32°C (40°F and 90°F). Do not use on food or feed crops. TREE GUARD® has been tested on many species of plants and trees and is not believed to be phytotoxic. Test a small portion of a plant species before treating entire plant. Children and pets may enter treated area after spray has dried. Do not apply or drift onto stone, concrete or siding as staining may occur. **Keep from freezing.**

DIRECTIONS FOR USE: Shake well before using. Apply product directly to dry plants only. Hold spray tip 30 to 60 cm (1 to 2 ft) from plants and spray leaves, needles, buds and branches subject to browsing by deer. Thoroughly wet surfaces but not to run-off. For best results, apply to bare branches in fall and to unprotected foliage in spring. Repeat as needed. **Clean application equipment immediately after use before spray dries.**

NOTICE TO BUYER: Seller’s guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
