DIRECTIONS FOR USE

SUPER SPREADER ADJUVANT is a nonionic water solution product which enhances the effectiveness of agricultural and non-crop chemicals.

HOW DOES IT WORK? When SUPER SPREADER ADJUVANT is added to the spray mixture, foliage wettability is improved through the formation of a continuous uniform film on leaf surfaces.

SUPER SPREADER ADJUVANT performs well in both hard and soft water.

HOW TO MIX: Fill the spray tank about half-full with water and add the required chemical while the agitator is running or bypass agitation is operating. Complete the filling of the tank with water and finally add SUPER SPREADER ADJUVANT under constant agitation. Refer to specific product labels for more details. Add SUPER SPREADER ADJUVANT to a spray mixture when the use of such an adjuvant is recommended on the label. Follow the chemical label for complete instructions on rate of chemical to use.

Use SUPER SPREADER ADJUVANT as follows:

CHEMICAL PRODUCT	Amount of SUPER SPREADER ADJUVANT per 1000 L of spray solution	REMARKS
ACCENT	2 L	
ALLY	2 L	
ATRAZINE	1.25 L	Use this low rate with soft water.
	2.5 L	Use this rate with hard water.
BASAGRAN	1.25 L	Use this low rate with soft water.
	2.5 L	Use this rate with hard water.
ELIM	2 L	
ESCORT	2 L	
MUSTER	2 L	
PINNACLE	1 L	
PRISM	2 L	
PYRAMIN FL	1.25 L	Use this low rate with soft water.
	2.5 L	Use this rate with hard water.
TELAR	1 L	Also for TELAR plus KROVAR I DF tank mixes.
REFINE	2 L	
REFINE EXTRA	2 L	
REFLEX	1 L	
RELIANCE STS	2 L	
ULTIM	2 L	
UNITY Herbicide Tank Mix	2.5 L	

CROP	WEEDS	RATE	REMARKS
Spring Wheat Including: Hard red spring, Canada Prairie spring, soft white spring and extra strong (utility) wheat	Wild Oats Green Foxtail (wild Millet) Broad Leaf Weeds listed on the 2,4-D ESTER label	EVEREST SOLUPAK 70 DF at 43 g/ha EVEREST SOLUPAK 70 DF at 21.5 g/ha +2,4-D ESTER 600 at 700 mL/ha or 2,4-D ESTER 700 at 600 mL/ha +SUPER +SPREADER ADJUVANT at 2.5 L/1000 L	Follow all directions and precautions on the tank-mix partner labels.
Spring Wheat Including: Hard red spring, Canada Prairie spring, soft white spring and extra strong (utility) wheat	Wild Oats Green Foxtail (wild Millet) Broad Leaf Weeds listed on the TURBOPROP 600 label	EVEREST SOLUPAK 70 DF at 21.5 to 43 g/ha +TURBOPROP 600 at 1.75 L/ha +SUPER SPREADER ADJUVANT at 2.5 L/1000 L	Follow all directions and precautions on the tank-mix partner labels.

STORAGE

SUPER SPREADER ADJUVANT may be stored for a minimum of two years at any temperature without loss of activity. Container must be tightly closed during storage.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. May be hazardous if swallowed. Avoid contact with eyes. CAUTION: Do not graze the treated crops or cut for hay; there is not sufficient data available to support this use. DO NOT APPLY BY AIR.

If this pest control product is to be used on a commodity that may be exported to the U.S. and you require information on acceptable residue levels in the U.S., contact 1-866-375-4648 or www.cropro.org.

TOXICOLOGICAL INFORMATION

SUPER SPREADER is a surfactant. The effects of acute exposure by possible route of entry are: **Skin Contact:** No effects of exposure expected due to contact. Prolonged contact may cause skin irritation or dermatitis in some individuals.

Eye: Causes painful stinging or burning of eyes and lids, watering of eyes, conjunctivitis, opaqueness of cornea, possibly leading to loss of sight.

Inhalation: If misted, may cause sneezing, slight irritation of nose and throat.

Ingestion: May cause nausea and vomiting.

Notes to Physician: This product contains Diethylene Glycol. Activated charcoal mixture may be administered. To prepare activated charcoal mixture, suspend 50 grams activated charcoal in 400 mL water and mix thoroughly. Administer 5 mL/kg, or 350 mL for an average adult. Treat symptomatically.

FIRST AID

IF ON SKIN: Remove all contaminated clothing. Wash skin and hair thoroughly with soap and water. Wash clothing before reuse. If irritation persists, get medical attention or contact a poison control centre **IMMEDIATELY**.

IF IN EYES: Flush with running water for at least 15 minutes while holding eyelids open to help flush out material. Get medical attention or contact a poison control centre **IMMEDIATELY**.

INGESTION: Drink 1-2 glasses of water and induce vomiting **IMMEDIATELY**. Never induce vomiting or give anything by mouth to an unconscious person. Keep head lower than chest to avoid aspiration into lungs. Call physician or contact a poison control centre **IMMEDIATELY**.

INHALATION: Remove to fresh air. If breathing is difficult, administer oxygen; if breathing stops administer artificial respiration. Get medical attention or contact a poison control centre **IMMEDIATELY**.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL

1. Triple – or pressure - rinse the empty container. Add the rinsing to the spray mixture in the tank.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the *Pest Control Products Act* to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
